### Jesus Feeds 5,000

Our Bible story this week was Jesus Feeds 5,000. Some questions you can ask your preschooler are: Who was talking to the people? (Jesus) What was happening to the people? (They were getting hungry) What did the disciples want the people to do when they got hungry? (They wanted them to leave and go back home) Who was the only one to bring a lunch? (1 boy) What did he have in his lunch? (5 loaves of bread and 2 fish) What did Jesus do with them? (He said a prayer and gave them to the disciples to pass out to the people) After they had passed them out to everyone was there any food left? (Yes, 12 baskets)

#### Focus Letter 'I'

The children learned that the letter 'I' is the beginning letter for the following words: Iguana, ice, igloo, icicle, ice cream, ice cube, and ice water. We also learned a poem about Iggy the Iguana to help us learn the different sounds that the letter 'I' makes.

#### Fine Motor, Sorting, Visual Discrimination, and Math Activity

The children sorted plastic beads this week. They had a small container of beads of various sizes and colors. They needed to sort the beads by color. They had to visually discriminate which beads were the correct color. Then they had to use their fingers to pick up the beads and place them in the correct container and count them. They really enjoyed looking for the requested colored beads and also counted them as they placed them in the color specific container. This activity was planned for 1 day but the children requested we do it for 3 consecutive days.
